Westlake Global Compounds™

PRODUCT SOLUTION 2651

PIVOTAL™ PVC Compounds

Westlake offers the PIVOTAL™ portfolio designed for performance with post-industrial recyclate (PIR) content. This engineered pellet solution is uniform and thoroughly tested.

Product Solution 2651 - This rigid compound is formulated for a variety of custom injection molding applications. This compound is partially formulated with recycled product to allow for a more sustainable end product.

- Developed to consistently perform like virgin resin with minimal lot-to-lot variability
- Designed to achieve high flammability resistance and RTI properties
- Specifically formulated to process well during injection molding, including multi-cavity tools

PIVOTAL™

Grade	Specific Gravity	ASTM D-1784 Cell Class	Post-Industrial Recyclate (%)	Typical Applications
2651	1.35	13454	40	Outlet Boxes, Conduit Bodies

About Us

At Westlake Global Compounds, we have a passion for working to meet our customer needs through superior technology, product quality, and operating excellence. Our determination to seek solutions that change lives and minimize environmental impact has driven us to be a globally integrated compound company. Our local teams combine personal attention with the expertise, geographical footprint and financial resources of a global leader – all to benefit you, our customers.

Our Distributors & Partners

We offer a comprehensive range of products to meet the needs of our customers. We work with leading distributors and partners to provide our products to businesses of all sizes.

Important details: The information presented in this brochure is for general informational purposes only. The content, technical information and recommendations herein were developed in good faith and believed to be accurate when published, but Westlake Global Compounds expressly excludes any warranty, expressed or implied, including, but not limited to, any warranty of merchantability or fitness for particular purpose, for such information. Customers are solely responsible for verifying that any Westlake Global Compounds product purchased is suitable and acceptable for customer's intended use. As customer solely controls its equipment, operating conditions and processes, customer is solely liable for use of the delivered Westlake Global Compounds products in its facilities and products.

In particular, Westlake Global Compounds does not warrant or guarantee that delivered products will invariably meet any typical (or other) values described. Typical values are expected values when the properties of our products are tested with our equipment, using our test methods at a specific point in time. Some product properties are not regularly tested, so values described as typical may not be based on a statistically relevant number of tests. Quality inspections are conducted on representative samples and not on the actual delivered product.
